Seeking an opportunity to further expand my technical and business background, with a focus on designing, migrating, securing, and administering corporate workloads within the Microsoft Cloud.

EXPERIENCE

SEPTEMBER 2021 – PRESENT

AZURE CLOUD ENGINEER, PRA LAW FIRM

Design, implement, and administer Azure Cloud solutions. Develop policies around Identity, Security, and Mobile Device Management. Manage collaboration with Office 365, Exchange Online, Teams, SharePoint, and OneDrive. Monitor and maintain health of cloud systems.

JULY 2017 – SEPTEMBER 2021

SENIOR PROJECT MANAGER, PRA LAW FIRM

Directed multi-disciplinary projects to achieve business goals. Project Manager during MSP's migration of all on-premises computing resources to the Microsoft Cloud. Managed vendor relationships and integrations with technology partners.

JANUARY 2007 – JULY 2017

SENIOR ANALYST, PRA LAW FIRM

Collaborated with all business departments to identify key processes and opportunities for improvement. Identified key performance indicators and developed reporting for all core areas of business. Supported high-level initiatives in Operations, Finance, and Information Technology.

JANUARY 2003 – JULY 2007

SYSTEMS ADMINISTRATOR, PRA LAW FIRM

Managed on-premises infrastructure, Active Directory, and Group Policy. Analyzed and implemented corporate IT security policies. Team Leader for group handling support tickets.
